**SECOND SUPPLEMENTAL RESPONSES OF DEFENDANT, PETERSON
FARMS, INC. TO FIRST SET OF INTERROGATORIES AND FIRST
REQUEST FOR PRODUCTION OF DOCUMENTS BY PLAINTIFFS**

Defendant, Peterson Farms, Inc. ("Peterson Farms"), respectfully submits the following Second Supplemental Responses to Plaintiffs' First Set of Interrogatories and Requests for Production of Documents, pursuant to Federal Rules of Civil Procedure 26, 33 and the Court's Order of December 7, 2007 (Dkt. #1409).

GENERAL OBJECTIONS:

1. Peterson Farms objects to, and does not agree to, or agree to subject itself to, the arbitrary and extraordinary "definitions" described by the plaintiffs to certain terms as set forth in their First Set of Interrogatories and Requests for Production of Documents propounded to Peterson Farms. To the extent that such terms appear in the plaintiffs' First Set of Interrogatories and Requests for Production of Documents and are in excess of the requirements of the Federal Rules of Civil Procedure, Peterson Farms instead ascribes to the ordinary, every day and reasonably, commonly understood meanings which apply to such terms, and also which comply with the Federal Rules of Civil Procedure. Peterson Farms objects to the definitions to the extent they assume facts not in evidence or related to facts or contentions in dispute in the action. Peterson Farms also specifically objects to the definition of "Defendant" as it is overly broad and includes within its scope "Contract Growers." Peterson submits these answers and responses for itself and not for any other person or entity, including any person or entity who raises poultry under contract with Peterson Farms.

2. Each of the following responses is made subject to and without waiving any objections Peterson Farms may have with respect to the subsequent use of these responses or the documents identified pursuant thereto, and Peterson Farms specifically reserves: (a)

all questions as to the privilege, relevancy, materiality, and admissibility of said responses or documents; (b) the right to object to the uses of said responses or the documents identified pursuant thereto in any lawsuit or proceeding on any or all of the foregoing grounds or on any other proper ground; (c) the right to object on any and all proper grounds, at any time, to other discovery procedures involving or related to said responses or documents; and (d) the right, at any time, upon proper showing, to revise, correct or clarify any of the following responses.

3. Peterson Farms objects to each and every interrogatory and request to the extent it seeks or calls for information or the identification of documents which are protected from discovery and privileged by reason of: (a) the attorney-client communication privilege; (b) the "work product" doctrine; (c) the "trial preparation" doctrine; (d) the joint defense or "co-party" privilege; or (e) any other applicable discovery rule or privilege.

4. Peterson Farms objects to each and every interrogatory and request to the extent it seeks information or the identification of documents concerning any claims or occurrences other than the claims and occurrences set forth in Plaintiffs' First Amended Complaint for which Plaintiffs request relief.

5. Peterson Farms objects to each interrogatory and request to the extent it seeks or relates to information or the identification of documents which are available to the public, and thus, equally available to Plaintiffs.

6. Peterson Farms objects to each request to the extent it seeks or relates to information or the identification of documents which are protected as proprietary and confidential trade secrets.

7. Peterson also incorporates as though fully restated herein all objections and limitations to responses made by every other defendant to the corresponding interrogatories and requests for production.

8. The foregoing objections apply to each and every response herein. By specifically incorporating individual General Objections in any response, Peterson Farms expressly does not waive the application of the remainder of the General Objections to such response. Subject to these objections and subject to any additional objections set forth hereinafter, Peterson Farms responds to Plaintiffs' First Interrogatories and Requests for Production as follows:

SUPPLEMENTAL RESPONSES TO INTERROGATORIES

INTERROGATORY NO. 1: For each of your poultry growing operations in the IRW since 1952, please provide the following information:

- a. name and physical location of the operation;
- b. dates of operation;
- c. type of operation (breeder, broiler, layer, etc.);
- d. number of birds (aggregated annually) at each location; and,
- e. name of the owner and operator.

SUPPLEMENTAL RESPONSE: Peterson Farms objects to Interrogatory No. 1 as it is overly broad in scope, and is therefore overly burdensome. Peterson does not possess information sufficient to answer this interrogatory as it seeks information regarding operations extending back in time for 54 years. Furthermore, Peterson Farms objects to the time period of this interrogatory as it seeks information that is neither relevant nor is it likely

to lead to the discovery of admissible evidence. In addition, Peterson Farms did not attempt to maintain grower information by watershed until 2003.

Subject to and without waiving the foregoing specific objections and its General Objections, Peterson Farms refers Plaintiffs to its contract growers' files (for current and former contract growers within the Illinois River Watershed), which it has previously produced for the time period of 2002 to the present. Peterson Farms also refers Plaintiffs to the tables attached hereto as Table "A" and Table "B",¹ which are incorporated herein by reference, containing the requested information for independent farmers under contract with Peterson Farms for poultry production who are believed to be within the Illinois River Watershed. The operations and other information in Table "A" and Table "B" have been identified to the best of Peterson Farms' current knowledge and ability and are subject to the qualification and caveats discussed hereinafter.

With regard to the capacity figures in Table "A", Peterson Farms periodically recalculates or adjusts poultry house capacity based on factors such as, but not limited to, the size of chicken in production, advances in poultry house technology, improvements in poultry house ventilation, increase in the number of poultry houses, retrofitting of existing facilities, and replacement of outdated poultry houses with modern facilities. The capacity figures in the "7/25/2007" column correspond with the capacity figures in the report marked Exhibit "1B" at the Rule 30(b)(6) deposition of Kirk Houtchens on July 26, 2007.

¹ Table "B" is comprised of three parts: B-1 for broilers, B-2 for hens, and B-3 for pullets.

With regard to the chicken production figures in Table "B", Peterson Farms maintains that, to the extent these figures are used to calculate or estimate the production and/or land application of poultry litter within the Illinois River Watershed, the information is inherently unreliable and, therefore, it objects to the admissibility of any such evidence for any claim before the Court. The chicken production figures in Table "B" represent Peterson Farms' best estimate as to the number of chickens placed in and removed from the respective operations during the identified fiscal years beginning October 1 and ending September 30, but Peterson Farms cannot certify the accuracy of the chicken production numbers for the Illinois River Watershed for reasons discussed herein.

As noted above, Peterson Farms did not begin categorizing, or attempting to categorize, growers by watershed until 2003, rendering chicken production figures for growers who ceased operations prior to 2003 less reliable than more current figures. The identification of any growers who terminated their relationship with Peterson Farms prior to the period in which it began attempting to designate the watershed of the growers as a part of its regular business practice were identified through a manual process based primarily on the recollections of long-term employees in Peterson Farms' live production department.

Similarly, many of the operations, whether current or former, are located on or near the boundary of the Illinois River Watershed and an adjacent watershed, leaving them subject to removal from (or addition to) the chicken production figures in Table "B". The boundaries of the Illinois River Watershed are uncertain and dependent on the entity defining the watershed. For example, as Plaintiffs' are aware, a poultry inspector from ODAFF has previously identified operations under contract with Peterson Farms as being

located in an adjacent watershed that Peterson Farms believed were in the Illinois River Watershed. Peterson Farms cannot possibly verify that the criteria and boundaries it used beginning in 2003 to designate a particular grower's watershed location are the same as those used, for instance, either by ODAFF for its regulatory purposes or by Plaintiffs in defining the Illinois River Watershed in their First Amended Complaint.

Furthermore, the chicken production figures in Table "B" do not take into account the size of the chicken in production during the respective periods, the age of the chickens at the time of death or removal from an operation, the length of time a given flock was in the particular operation, the mortality in the particular operation, the period in which a flock was in the care of a particular operation, the operations' respective cake-out or litter clean-out occurrences, the amount of litter removed from an operation, or the ultimate destination of poultry litter removed from any operation, which could be either within or outside the Illinois River Watershed. Similarly, the chicken production figures in Table "B" cannot reliably be used to estimate or calculate the number of chicken/head per day in a particular operation, the rate at which an operation experienced mortality among chickens initially placed in the operation, or the weight of the chicken at the time of death or removal from the operation.

In addition, in isolated incidences of which Peterson Farms is aware of only one, the figures reflected on Table "B" may be in error. The suspected error in the figures is contained in the "In 2004" and "Out 2004" column for Lee Breeder Farm on the hen portion (B-2) of Table "B". The "In 2004" figure of 27,395 is believed to be overstated by an amount equal to the "Out 2004" figure of 9,437; the transfer "out" represented by the 9,437

figure was an internal transfer specific to Lee Breeder Farm, resulting in double counting of these birds in the “in” figure. Upon information and belief, the accurate “In 2004” figure for Lee Breeder Farm should be the “In 2004” figure of 27,395 less the “Out 2004” figure of 9,437, or 17,958.

Therefore, subject to the foregoing objections, qualifications and caveats, the best estimate in Table “B” may be an over-estimate or under-estimate based on a number of factors of which a representative list only is discussed herein; these numerous factors, including but not limited to the aforementioned qualifications and caveats, constitute the “margin or error” for the bird production figures in Table “B”.

Respectfully submitted,

By */s/ A. Scott McDaniel*
